Family Fun
Every year our chapter sponsors kids’ fishing derbies at stocked lakes in Buena Vista and Salida. This free, family oriented day brings the community together for the chance to catch fish and prizes.

Fly Tying Lessons
Fly tying demonstrations are held for adults and kids. Discover life underwater and learn how to tie flies to match the hatch, then enjoy the thrill of fishing with the flies you tied.

Stream Projects
Chapter members get the opportunity to assist local, state and federal agencies with high country trout stocking, stream surveys, fence building projects, etc.

Fishing Trips
Chapter fishing trips provide fishers of all ability levels a chance to experience the joys of being on the river, explore new streams, improve skills and meet fellow anglers.

FlyGals
A fun group of women fly-fishers get together to learn skills, improve casting and fly tying, enjoy the outdoors and have a good time in a friendly setting.

Giving Back
Our chapter hosts the Caddis Festival each May. Money raised at this banquet goes to scholarships, kids’ summer camps, stream improvement projects and more.

Stream Explorers
A hands-on curriculum developed by our chapter. Middle school students study fish, insects and water chemistry while enjoying fly tying, casting and fishing basics.

Collegiate Peaks Anglers Chapter #466
www.CollegiatePeaksAnglersTU.org
**Our Mission**
To conserve, protect and restore North America’s coldwater fisheries and their watersheds.

**Our History**
The Collegiate Peaks Anglers Chapter of Trout Unlimited was chartered in 1985. We accomplished our first stream improvement project within the first month of existence and have been hard at work ever since.

Started with 35 people, the chapter now boasts nearly 300 members throughout the upper Arkansas River valley. This chapter has won numerous state and national TU awards and our projects have garnered many state and federal agency awards as well.

We are a strong chapter with a membership that has grown into life-long friendships.
